

The 12th Annual ICORD Conference The 6th China Rare Disease Summit

第十二届国际罕见病与孤儿药大会暨第六届中国罕见病高峰论坛

September 7th~10th, 2017 | Beijing China

Rare Diseases, Global Challenges and China's Role

罕见病的全球挑战与中国角色

The 12th ICORD Annual Conference 2017 and The 6th China Rare Disease Summit 2017

Introduction

The 12th ICORD Annual Conference 2017 and The 6th China Rare Disease Summit 2017 will be held in Beijing, China, on September 7-10, 2017, which is sponsored by the International Conference on Rare Disease and Orphan Drug and the joint organizer (ICORD), Chinese Organization for Rare Disorders (CORD) and Peking Union Medical College Hospital.

ICORD is an international society for all individuals actively involved in rare diseases and/or orphan drugs. The China Rare Disease Summit was initiated in 2012 which has been the most comprehensive and the largest event in China Rare Disease area. It will be the first time for the ICORD annual conference together with China Rare Disease Summit held in China, with the theme of Rare Diseases, Global Challenges and China's Role. This conference will provide an important platform for information exchange and communication for rare diseases around the world with the aim to facilitate communication and collaboration via knowledge sharing and fosters innovation for rare disease research in China and development as well as improvement of the level of health and well-being worldwide.
