

SGI 2018 Program at a Glance

(October 18, Thursday)

TIME	ROOM	Activity
	Jinshajiang Hall <i>(admits 200 persons)</i>	
13:30-17:40 (250')		Chinese Expert Consultation on Intervention Radiology of Liver Cancer (Chinese) (Bayer)
18:30-20:30 (120')		President Dinner

DAY 1 (October 19, Friday)

TIME	ROOM	Nanjing Hall-A <i>(admits 400 persons)</i>	Nanjing Hall-B <i>(admits 400 persons)</i>	Zhonghua Hall-A <i>(admits 200 persons)</i>	Zhonghua Hall-B <i>(admits 200 persons)</i>	Zhonghua Hall-C <i>(admits 200 persons)</i>	Room 725 <i>(admits 180 persons)</i>	Room 736 <i>(admits 180 persons)</i>	Room 730 <i>(admits 150 persons)</i>	Room 733 <i>(admits 150 persons)</i>
08:00-09:30 (90')		Session 1. Local ablation for HCC	Session 4. Endoscopic vs. radiologic approach to the management of colorectal obstruction: which is better?	Case-based Discussion 1. Feeding strategy in the palliative management of gastrointestinal cancer	Debate Session. Cystic pancreatic neoplasms: what's new in 2018? (pancreatic cysts - why the controversy?)	Session 11. The treatment of intermediate-stage HCCs	<ul style="list-style-type: none"> ● Live Demonstration-1 (07:30-08:30) (Seattle, USA) ● Live Demonstration-2 (08:45-09:45) (Seoul, Korea) 			
09:30-10:00 (30')		Coffee Break								
10:30-11:00 (30')		Opening <i>(Nanjing Hall, admits 1200 persons)</i>								
11:00-12:20 (80')		Keynote Speech								
12:30-13:30 (60')		EXPO		Luncheon Symposium - 1. Micro-Tech (Nanjing) Co., Ltd.	Luncheon Symposium - 2. Boston Scientific	EXPO	● Live Demonstration-3 (12:00-13:00) (Hyderabad, India)	EXPO		
13:30-15:00 (90')		Special Session. Esophageal stents: clinical and experimental applications	GI Bleeding Session - 1 (Chinese) (Boston Scientific)	Session 5. Endoscopic treatment for complication after GI oncology	Session 8. Recent progress of local ablation therapy for pancreatobiliary malignancy	Session 12. Dark and light of radiation therapy in colorectal cancer	● Video Session-1 (13:30-14:30) * Fundamentals of... video workshops (demonstrating best practice of common procedures)	Session 15. Lung metastases	Chinese Session- 1.	CCI-RISE (Radiologist Interventional Skill Enhancement) Project
15:00-15:30 (30')		Coffee Break								
15:30-17:00 (90')		Session 2. How to manage ruptured HCC	GI Bleeding Session - 2 (Chinese) (Boston Scientific)	Session 6. Hybrid approaches in management of gastric tumor	Session 9. Interventional management in pancreatobiliary malignancy	Session 13. Debatable issues in the management of colorectal neoplasia	● Live Demonstration & Video Session (15:30-18:30) (China)	Session 16. A guide to better manuscript writing in English	Session 17. Sedation symposium	CCI-RISE (Radiologist Interventional Skill Enhancement) Project
17:00-18:30 (90')		Session 3. Portal hypertension and portal venous embolization	CCI Youth Session - 1 (Chinese)	Session 7. Endoscopic treatment for oncologic complications	Session 10. Tumor ablation therapies	Session 14. The cutting edge of colorectal endoscopic submucosal dissection		Editorial Board Meeting (17:30-19:30) CCI-Chinese clinical practice guideline of TIPSS for portal hypertension (Gore)	SGI Steering Committee Meeting (17:00-18:00)	
18:30-20:30 (120')		Gala Dinner								

DAY 2 (October 20, Saturday)

TIME	ROOM	Nanjing Hall-A <i>(admits 400 persons)</i>	Nanjing Hall-B <i>(admits 400 persons)</i>	Zhonghua Hall-A <i>(admits 200 persons)</i>	Zhonghua Hall-B <i>(admits 200 persons)</i>	Zhonghua Hall-C <i>(admits 200 persons)</i>	Room 725 <i>(admits 180 persons)</i>	Room 730 <i>(admits 150 persons)</i>	Room 733 <i>(admits 150 persons)</i>	
07:30-08:30 (60')									SGI Editorial Committee Meeting	
08:30-10:00 (90')		Tumor Ablation Session - 1. (Chinese)	Session 18. Approaches to clinical T1b cancers in upper gastrointestinal tract	Session 22. Introduction of palliative intervention for pancreatic cancer	Session 25. New strategy for overcoming the stent obstruction in malignant obstruction	Free Paper Session - 1.	● Hands-on Workshop Percutaneous biliary intervention	Free Paper Session - 2.		
10:00-10:30 (30')		Coffee Break								
10:30-12:30 (120')		Tumor Ablation Session - 2. (Chinese)	Session 19. Management of gastrointestinal stromal tumor (GIST)	Session 23. Management of complications after pancreatobiliary surgery	Session 26. Non-conventional access for biliary and duodenal stents	Session 29. Management of HCC with PVTT		Chinese Red Cross Foundation iHOPE (Interventional Hengrui Oncology Patient Embrace) Project		
12:30-13:30 (60')		EXPO								
13:30-15:00 (90')		Tumor Embolization Session. (Chinese) (Scion)	Session 20. Strategies for the multidisciplinary management of colorectal cancer	Session 24. Recent progress in CBD stones removal under ERCP	Session 27. Multidisciplinary management of necrotizing pancreatitis	Chinese Session- 2 (Chinese).	<ul style="list-style-type: none"> ● Live Demonstration-4 (14:00-15:00) (Barcelona, Spain) ● Video Session-2 (15:30-17:00) 			
15:00-15:30 (30')		Coffee Break								
15:30-17:00 (90')		CCI Youth Session - 2 (Chinese)	Session 21. Complications related to endoscopic or radiologic intervention of colorectal neoplasia: risk and management	Case-based Discussion 2. Management of acute cholecystitis	Session 28. Bile duct injury: When to repair with surgery and when to use minimally invasive procedures	Session 30. Other tumor ablation or intervention sessions				
17:00-18:30 (90')				Free Paper Session - 3.	Free Paper Session - 4.					
18:30-20:30 (120')		Closing & Dinner
