

Program-at-a-Glance

12, July 2018						
Function Room2		230A		Function Room1		Dongfang Hall
08:30-12:00	Aortic Workshop	08:30-12:00	Venous Workshop	10:00-12:00	Vascular Access Anastomosis Competition (Sponsored by Gore)	
13:00-17:00	Basic, Research, Challenging Cases	14:30-17:00	Compression, Sclerotherapy, Ultrasound; APG; How to Cross the Long Occlusive Lesion	12:00-17:00	Vascular Access Workshop	Boston Scientific Symposium

13, July 2018				
Plenary Session of ASVS and the Southern Endovascular Congress Keynote Presentations				
Keynote Presentations				
Addressing TEVAR Landing Zones in the Aortic Arch-What Are the Options				
Open Reconstruction of Large Veins in the Endovascular Era				
EVAR Durability and Endoleaks 2018				
Evolution of Endovascular Treatment of Complex Thoracic Abdominal Aortic Aneurysm				
Current Treatment Scenario on Ruptured Abdominal Aortic Aneurysms in China				
Vascular History Video Introduction				
Time	Hall B	230A	Function Room1 (Asian Venous Forum)	270A
12:00-12:30	ASVS Plenary Session Keynote Presentation: Appropriateness in Venous Disease Management: Are International Guidelines needed?			
12:30-14:00	Aorta1: Thoracic Aortic Aneurysms	Aortoiliac Occlusive Disease	Venous Insufficiency 1	Vein 1
14:00-15:30	Aorta2: Aorta Dissection1	PAD1: Debulking, Stents, DCB, DES	Venous Insufficiency 2	Peripheral artery 1
15:30-16:00 Debate	The Technique of Fenestration in Situ Should be Promoted for Arch Lesion For the Motion: Yongjun Li Against the Motion: Stephen W.K. Cheng	Open First or Endo First for Critical Limb Ischemia Open First: Andrew Bradbury Endo First: Andrew Holden	EVRA Trial Will Change the Clinical Practice for Venous Ulcer For the Motion: Sriram Narayanan Against the Motion: Ngho Chin Liew	
16:00-18:00	Aorta3: Aorta Dissection2	PAD2: Critical Limb Ischemia	Venous ulcer, Lymphoedema	Aorta 1

14, July 2018				
Time	Hall B	230A	Function Room1 (Asian Venous Forum)	270A
08:00-09:30	Aorta 4: AAA:	Diabetic Wound	DVT 1	Aorta 2
09:30-10:00	ASVS Plenary Session: Keynote Presentation: The Evidence for an Endovascular First Revascularisation Strategy for Chronic Limb Threatening Ischaemia?			
10:00-11:30	Aorta5: Juxtarenal Aneurysm	BTK	DVT 2, Filter	Aorta + Peripheral artery
11:30-12:00 Debate	Open Surgery is Best for AAA with Hostile Necks For the Motion: Peter Robless Against the Motion: Ronald Dalman	CAS or CEA in Recently Symptomatic Patients? For CEA: Ross Naylor For CAS: Wei Zhou	Pelvic Congestion Syndrome Requires Early Vascular Intervention and Not Conservative Therapy For : Nei Khiani Against: Yiu Che Chan	
12:30-14:00	Aorta 6: Juxtarenal Aneurysm	Carotid 1: Carotid Artery Stenosis	Vascular Access	Vein 2
14:00-15:30	Aorta 7: Ruptured AAA	Carotid 2: Carotid Body Tumor, Carotid Aneurysm	Malformation, Pelvic Congestion Syndrome	aorta+Peripheral artery+Carotid artery
15:30-16:00	ASVS Plenary Sessio: Keynote Presentaiton: CAS or CEA in Recently Symptomatic Patients?			
16:00-18:00	Aorta 8: Iliac Aneurysm, Endoleak, Arteritis	Popliteal Artery Lesion, Visceral Artery	16:00-17:00	Joint-Journal Meeting
			17:00-18:00	Aorta 9: Mycotic Aneurysm and Infected Stent Graft
				A-V Access + miscellanea

15, July 2018	
Time	Function Room1
09:00-11:00	Eastern Vascular Surgeons Meet with Western Vascular Surgeons
